BOOK OF THE MONTH

**OLD HEAD ON
YOUNG SHOULDERS**
– How to ensure
financial
security for life
Charles Badenach
A&A BOOK PUBLISHING RRP \$29.99

Award-winning financial planner Charles Badenach's book is designed as a financial self-help guide specifically targeted at young Australians who want to achieve financial success.

The book aims to provide you with a guide to building wealth during a period in which there are a number of competing priorities for your income – such as children, mortgages, everyday living expenses and all the other temptations of life.

It delivers advice that can be applied to everyday life and includes examples and instructions that everyone can relate to.

In the book Badenach emphasises that to achieve true financial independence, it is necessary to build an income stream independent of your employment income. This takes time, patience and persistence, but this book does have a lot of practical ideas about how you might achieve it. **PAM WALKLEY**
